- **Do I need a water bottle:** no, we provide a water bottle for a free refill. The bottle is yours, and you can treasure it as a lovely souvenir.
- **Guideline for tipping:** even if eventually it is not normal in your country, on all cruises and trips in the Galapagos, tipping is customary and expected. Adapting to the visited country is part of being a respectful and polite traveler, especially when taking into consideration that tourism requires a 24/7 presence during the whole year, so also on weekends, holidays, and much on board a ship. Your tip will be a welcomed and well-appreciated *thank you*.
  - For the naturalist guides on board, the person that makes sure that you will enjoy and love the islands as much as she/her does, you should plan to tip 10-20 U\$ per person per day
  - The crew also works hard and also is there 24/7 to guarantee good service and quality on board, and you should tip them as well: 10-20 U\$ per day and person to be divided among the entire crew

We are looking forward to having you soon as our guests onboard the Yacht Angelito!

*Hasta luego!*
